On behalf of the Board of Directors, I am pleased to present the Annual Report of Kuantan Flour Mills Berhad ('KFM') and the Audited Financial Statements of the Group for the financial year ended 30th September 2017. I wish to highlight that the financial statements have been prepared in accordance with the Financial Reporting Standards and the Companies Act 2016 in Malaysia.

Financial Review

The Group has resumed our flour milling operation during the second half of the financial year under review as a result of our business collaboration with Lotus Essentials Sdn Bhd. It took great efforts from every staff of all levels to ensure the success in resuming the operation.

The Group achieved a significant increase in revenue to RM 7.52 million as compared to the previous financial year's revenue of RM 3.92 million. The increase in revenue was due to the reactivation of our flour milling operation and also the additional revenue generated from the sale of tapioca starch arising from the business collaboration with Lotus Essentials Sdn Bhd.

Despite recording higher revenue, the Group incurred a higher loss before tax of RM 12.26 million during the financial year ended 30 September 2017 as compared to the previous year's loss before tax of RM 12.09 million. The higher loss before tax incurred was mainly due to the maintenance cost required to restart the operation, professional fees incurred on the proposed regularization plan and interest cost. Besides, our weak currency Ringgit Malaysia versus US Dollar has also weakened our position in securing cheaper raw materials.

Overview of the Industry

The announcement by the Government in 2016 to withdraw subsidy for the 25kg packing of the general purpose flour which is under the Price Control Act has created a level playing field for KFM to be back in the flour business. Despite of the flour business intense competitive environment, we are expecting continuous growth for the flour market as there is a rising trend of demand in the user industries such as the bakery, biscuits and noodles which shall create opportunities for KFM to re-establish its position in the market.

As wheat is a globally traded commodity and is the main raw material use to produce flour, the prices of wheat are expected to remain volatile depending on the demand and supply. In addition, the performance of our currency against the US Dollar is also vital in securing cheaper wheat.

Subsidiary Companies

All subsidiary companies remain dormant during the financial year under review.

Corporate Social Responsibility ("CSR")

CSR has always been treated by the Group as an integral part of our business operations. Despite the hectic schedule due to the reactivation of our milling business during the financial year under review, we were still managed to continue our CSR with the selective programmes such as:

- 1) Safety awareness programmes.
- 2) "Gotong Royong" activities.
- 3) Continuous training and development programmes for employees of all levels throughout the financial year to enhance their skills, knowledge and competence,
- 4) Dinner and festive gatherings for our employees.

Prospects for the Year Ahead

During the financial year under review, the Group had been working on available potential options to revive the Group. On 29 March 2017, KFM entered into a business collaboration agreement with Lotus Essentials Sdn Bhd with the objective of reviving the Group's operations. Subsequently, the Group managed to resume its flour milling operations in May 2017 as the result of this collaboration. On 29 September 2017, the Group has submitted an application to Bursa Securities for approval pertaining to a proposed comprehensive regularization plan with the objective to revive the Group and uplift from PN17 status.

Considering what we have done during the financial year, we can positively say that we are on right track from which we continue our journey moving forward. In conclusion, the prospect of the Group shall depend very much on the successful implementation of the said proposed regularization plan. The Board of Directors is confident that with the energetic commitment from the management and staff, the Group shall be able to perform well in the coming years ahead.

Acknowledgement

On behalf of the Board of Directors, may I take this opportunity to thank KFM's management & staff for their loyalty, courage and commitment throughout this transformation period which undoubtedly been a very exciting period in our history.

Our sincere gratitude and appreciation to the Group's shareholders, our valued and loyal customers, suppliers, bankers, auditors, Government agencies and all other business associates for their recognition and confidence in KFM. We are looking forward to having your continued support and loyalty.

We thank you.

Kushairi bin Zaidel
Chairman

Overview of Business and Operations

Kuantan Flour Mills Berhad ('KFM') is principally engaged in flour milling and trading in its related products. The Company has temporarily ceased its business operations as at end of September 2016 due to financial constrain and has commenced reactivation of its flour milling operations since May 2017.

The Company has been classified as an affected listed issuer under PN17 on 28 December 2015 and is required to submit a regularization plan to the relevant authorities for approval within 12 months from the above date.

Corporate Developments

During the financial year, the following events took place:

On 13 December 2016, the Company has submitted an application to Bursa Malaysia Securities Berhad ('BMSB') for an extension of time of six (6) month to finalize and submit its regularization plan to revive the Group.

On 28 December 2016, BMSB has informed that the suspension on the trading of the Company's securities and de-listing of the Company shall be deferred pending decision of the application on extension of time.

On 14 February 2017, BMSB has granted an extension of time of six (6) month up to 27 June 2017 for the Company to submit its regularization plan.

On 29 March 2017, the Company via KAF Investment Bank Berhad ('KAF IB') made a requisite announcement involving proposals on private placement, rights issue and restructuring of debts with its creditors.

On 29 March 2017, the Company has entered a business collaboration agreement with Lotus Essential Sdn Bhd ('Lotus').

On 13 June 2017, the Company, via KAF IB submitted an application to BMSB for a further extension of time to submit its regularization plan.

On 10 July 2017, BMSB granted an extension of time up to 30 September 2017 for the Company to submit its regularization plan.

On 28 September 2017, the Company has entered into debt settlement agreements with its scheme creditors and debt conversion agreement with Lotus.

On 29 September 2017, the Company has submitted an application via KAF IB to BMSB pertaining to a proposed comprehensive regularization plan for approval.

Review of Group's Financial Results and Financial Conditions

The following table is the financial highlights of the Group for the past five (5) financial years:-

	2017 ' 000	2016 ' 000	2015 ' 000	2014 ' 000	2013 ' 000
Revenue	7,521	3,924	24,864	41,655	48,813
Operating loss	(12,259)	(11,795)	(16,459)	(1,715)	(4,879)
Loss before tax	(12,260)	(12,093)	(16,845)	(2,193)	(5,206)
Loss after tax and minority interests	(12,260)	(12,092)	(16,845)	(2,193)	(5,206)
Shareholders' funds	(23,068)	(10,807)	1,286	16,558	18,751
Net tangible assets	(23,068)	(10,807)	1,286	16,558	18,751
Tangible assets	15,244	8,233	23,504	30,117	35,176
Basic loss per share (sen)	(17.97)	(17.72)	(25.07)	(3.36)	(7.99)
Net Assets per share (sen)	(33.81)	(15.84)	1.88	25.42	28.78

The revenue of the Group has increased significantly from RM3.924 million for preceding financial year to current financial year of RM7.521 million. An increase of 192% on a year-to-year basis.

Prior to the Group ceasing its business operations temporary as at end of last financial year due to financial constrain, the Group's main stream of revenue was derived from the sales of main flour and its by-products.

However, upon the Company entering into a business collaboration agreement with Lotus in March 2017 and with the financial support from Lotus in procurement of raw materials and restoration and repair of the factory plant, machinery and buildings, the Company has re-commenced its wheat flour operations and started trading of tapioca starch in May 2017. Within a short span period of few months before the financial year ended 30 September 2017, the Group has managed to improve its revenue significantly as compared to previous financial year.

The gross loss position has reduced as compared to previous financial year. The improvement was due to positive contributions from trading of tapioca starch. However, the Group was still facing negative contributions during the financial year partly due to a large portion of flour were utilized for the purpose of flushing and testing the flour milling line during the initial period of resumption of productions and some portion of flour were used as sample for marketing purposes.

The Group has recorded a marginally higher loss before tax of RM12.260 million for the financial year as compared to previous financial year of RM12.093 million which was partly due to repair cost for factory plant, machinery and buildings, professional fees incurred on the proposed regularization plan and interest cost.

The Group's inventory position has increased substantially from RM0.381 million to RM4.895 million due to the build-up of raw material stocks since the reactivation of business operations in May 2017.

The total receivables has surged from RM0.261 million as at 30 September 2016 to current financial year end of RM4.105 million due to credit sales granted to customers as a result of improvement in sales since reactivation of business operations, refundable GST and advance for purchase.

The Group's cash and cash equivalents stood at RM0.334 million for the financial year ended 2017. A marginal decrease from RM0.434 million for previous financial year ended 2016.

The Group has zero borrowing as at end of the financial year.

However, on the payables side, it has increased substantially from RM18.992 million to RM38.297 million which was mainly due to the advances and supplier's credit extended by Lotus to the Company pursuant to the business collaboration agreement entered between both parties to finance on the purchase of raw materials, repairs of plant, machinery and factory buildings and other operational costs incurred during the period for the Company.

Total shareholder's equity continues to slide from negative RM10.810 million for previous financial year end 2016 to current negative RM23.069 million due to current financial year loss after tax of RM12.260 million.

Operations

During the financial year, the Group has restored and repaired the factory plant, machinery and buildings in order to re-activate its production and business operations. It has re-established its regional distribution and warehousing centres. Further, it has entered into business collaboration agreement with Lotus Essential Sdn Bhd in order to tap into tapioca and corn starch market to diversify into other food related market. During the period, it also has engaged external consultants to improve the efficiency & effectiveness on the production process.

The Group will strengthen its value chain by exploring into other value added flour related products in both the local and oversea markets.

Human Capital

Prior to the reactivation of business operations in May 2017, it was a challenging period for the Group in terms of recruiting the right people for the right role in the Group. We have some vacancies that took us several months to fill but we are also very selective with our candidates for key positions.

Talent management and development is a critical component of our future and the overall health of the Group, hence we will continue our efforts in ensuring our plans are executed accordingly.

Anticipated Business Risks

The Group is exposed to several business risks such as market competitions, volatility of imported raw material prices, movements of currency exchange rates and performance of user industries.

a) Market competitions

Flour milling operators including KFM Group face stiff competitions among other wheat flour millers in Malaysia, as well as imports.

b) Volatility of raw material prices

Wheat and tapioca are the main raw material that are used in wheat flour milling and tapioca starch trading respectively. Both the wheat and tapioca are globally traded commodities, and as a result, their prices may fluctuate from time to time. The price of wheat and tapioca are influenced by global macroeconomic factors including, among others, supply and demand of wheat and tapioca, as well as stock levels.

Any increase in the prices of wheat and tapioca may increase the cost of wheat flour and tapioca starch respectively. If the increase in cost is not passed onto customers on time, it may adversely affect the financial performance of the Company.

c) Volatility of currency exchange rates

As wheat and tapioca are fully imported from overseas markets. These raw materials are traded in US Dollars. Any unfavorable fluctuations in foreign exchange rates may have an adverse impact on the Group's financial performance and profitability.

d) Dependency on performance of user industries

Flour is mainly used in food manufacturing industries and food services operations. Any adverse performance in user industries would affect the demand for these products and hence, the financial performance of the Company.

OUTLOOK

The consumer sectors including flour milling industry and its related products is likely to see higher sales due to increasing demand while competitions remain stiff.

We will expand our flour and other value added flour related products to regions that we have not previously participated to capture a bigger market share.

Apart from making efforts to explore new markets to expand our revenue base, continuous efforts will also be taken to strengthen our operations in order to enhance productivity, new product development and maximize our profit margin.

The prospects of the Company are also dependent on the successful implementation of the proposed regularization plan upon being approved by the relevant authorities and the Company's ability to re-penetrate the market successfully with the assistance of Lotus. With these in place, it will enable the Company to return to profitable and uplifting the Company from PN17 status.

The Board of Directors (“the Board”) of Kuantan Flour Mills Berhad (“KFM” or “the Company”) is committed in maintaining a high standard of corporate governance and to ensure that the principles and best practices of corporate governance as set out in the Malaysian Code on Corporate Governance 2012 (“the Code”) are observed and adopted as a fundamental part of discharging its responsibilities to protect and enhance stakeholders’ value.

The Board is pleased to set out below how the Group has applied the principles and recommendations as set out in the Code for the financial year ended 30 September 2017.

PRINCIPLE 1 – ESTABLISH CLEAR ROLES AND RESPONSIBILITIES

Functions of the Board and the Management

The Board, comprising of members with a wide diverse range of business, financial and technical background, recognizes the clear distinction of the roles and responsibilities between the Board and the Management.

The Board reviews and implements key policies and is responsible for the overall adequacy and effectiveness of the Group’s risk management and internal control system.

The Management, on the other hand, is responsible for assisting the Board in implementing the policies and procedures adopted by the Board to achieve the Group’s objective and in running the Group’s day-to-day business operations.

Board’s Roles and Responsibilities

The Company is led by an experienced and dynamic Board. It has a balanced board composition with effective independent directors. The Board provides stewardship to the Group’s strategic direction and operations, and ultimately enhancing shareholders value. To fulfill this role, the Board is responsible for the following:-

- To review the performance of the Group on a quarterly basis.
- To receive updates and oversee the conduct of the Group’s business and operations.
- To deliberate on proposals presented and recommended by the management.
- To review and approve the annual and quarterly results, acquisition and disposal of major assets.
- To review the adequacy and effectiveness of the Group’s risk management and internal control system.
- To ensure that there are plans in place for orderly succession of senior management.

Directors’ Code of Conduct

The Directors shall be guided by the Code of Ethics for Directors’ issued by the Companies Commission of Malaysia. The Directors shall observe the Code of Ethics in performance of their duties which are vital for their business decisions.

Sustainability

The Board recognizes the environmental sustainability role as a corporate citizen in his business approach, and always endeavors in adopting most environmental friendly, ecological and cost effective production process.

Access to Information and Advice

All Directors have full and unrestricted access to all information of the Group on a timely and accurate manner to enable them to discharge their roles and responsibilities. In addition, the Directors have full and unrestricted access to the Company Secretary, the external auditors for independent professional advice and from external independent expert in deliberation of their duties.

Company Secretary

The Board recognizes the fact that the Company Secretary should be suitably qualified and capable of carrying out its duties as required of the post.

The primary role of the Company Secretary is to provide unhindered advice and services for the Directors, as and when need arises with the primary objective to enhance the effective functioning of the Board and to ensure regulatory compliance.

The Company Secretary facilitates the Board on overall compliance with the Main Market Listing Requirements (‘MMLR’) of Bursa Malaysia Securities Berhad as well as keeping the Board updated with the latest enhancements in corporate governance, changes in the legal regulatory framework, new statutory requirements and best practices.

Board Charter

The Board recognizes and observes the role, composition and responsibilities of the Board embodying in the principles of the Code and serve as a source of reference for new Board member. The Charter sets out guiding principles of good corporate governance to ensure fairness, transparency, accountability and responsibility. It provides guidance for Directors and Management regarding their roles in discharging their duties towards the Company as well as boardroom activities.

PRINCIPLE 2 – STRENGTHEN COMPOSITION

The Board of Directors delegates specific responsibilities to the respective Committees of the Board namely, the Nomination and Remuneration Committee and the Audit Committee, all of which have their terms of reference to govern their respective scopes and responsibilities.

Nomination and Remuneration Committee and Procedure

The Nomination and Remuneration Committees, sub-committees of the Board, under its terms of reference recommend new directors to the Board and to review annually the mix of skills and experiences and other qualities to enable the Board to function competently and efficiently. In furtherance to that, the Committee will also recommend to the Board the framework of executive remuneration package for Executive Director based on his duties and responsibilities. It is nevertheless the ultimate decision of the entire Board to approve the appointment of new directors and to approve the remuneration of these Directors. Directors do not participate in decision on their own remuneration packages. The directors' fees are approved at the Annual General Meeting by the shareholders, based on the recommendation of the Board.

Both the Nomination and Remuneration Committees currently comprise the following members:

Leong Chen Nyen (Chairman)
Kushairi bin Zaidel

The Company Secretary who is also the secretary to the Nomination and Remuneration Committees ensures that all the necessary information is obtained, and all legal and regulatory obligations are met.

The aggregate directors' remuneration paid or payable or otherwise made available to all directors of the Company during the financial year ended 30 September 2017 are as follows:-

	Executive	Non-Executive	Total
Salary and other emoluments	-	-	-
Pension costs - defined Contribution plans	-	-	-
Fees	-	102,000	102,000
	-	102,000	102,000

The number of directors of the Company whose income from the Company falling within the following bands are: -

	Executive	Non-Executive
Below RM50,000	-	3
RM50,001 to RM100,000	-	-
RM100,001 to RM150,000	-	-

RM300,001 to RM350,000	-	-
RM350,001 to RM400,000	-	-
	-	3

PRINCIPLE 3 – REINFORCE INDEPENDENCE

Annual Assessment of Independence

The Board, through the Nomination Committee, shall assess the independence of Independent Directors annually with a view to ensure the Independent Directors bring independent and objective judgment to the Board and this mitigate any conflict of interest or undue influence from interested parties. The criteria for assessing the independence of an Independent Director include the relationship between the Independent Director and the Company and his involvement in any significant transaction with the Company.

Tenure of an Independent Non-Executive Director

The maximum tenure of an Independent Non-Executive Director shall be for a cumulative period of nine (9) years. The Independent Non-executive Director may continue to serve on the Board beyond the nine (9) years tenure provided the Independent Non-Executive is re-designated as a Non-Independent Director. Further continuation is subject to the assessment of the Nomination Committee, justification of the Board and approval of the Shareholders.

Shareholders' Approval for Retaining Independent Non-Executive Director exceeding 9 years service

The Board recommends and seeks for shareholders approval for retaining Independent Non-Executive Director exceeding nine (9) years of service based on the following justifications:

- i) They had fulfilled the criteria under the definition of Independent Director as stated in the MMLR of Bursa Malaysia Securities Berhad and therefore were able to bring independent and objective judgment to the Board.
- ii) Their long tenure with the Company had neither impaired nor compromised their independent judgment, They were free from any business or other relationships which could interfere with their exercise of independent judgment.
- iii) They provided effective check and balance in the proceeding of the Board and the Board Committees
- iv) They continued to remain objective and are able to exercise independent judgment in expressing their views and in participating in deliberation and decision making of the Board and Board Committees in the best interest of the Company.
- v) They exhibited high commitment and devoted sufficient time and attention to their responsibilities as Independent Directors of the Company and
- vi) They had met with the attendance requirements for Board Meetings pursuant to the MMLR. During the financial year under review, they had each attended all the Board meetings held. This testifies to their dedication in discharging the responsibilities expected of an Independent Director.

Composition of the Board

The Board currently has three (3) Non-Executive Directors. The Chairman assumed the function of the Executive Director with the assistance of the Chief Financial Officer and the management to implement policies and decisions of the Board, oversees the operations and initiates business development efforts for the Group whilst the Non-Executive Directors bring a wide range of business experience and expertise to the Board for discussion and decision making. The Company's constitution allows a minimum of two (2) and a maximum of nine (9) Directors.

A brief profile of each Director is presented on page 22 of this Annual Report.

PRINCIPLE 4 – FOSTER COMMITMENT

Time Commitment

During the financial year ended 30 September 2017, the Board met on seven (7) occasions.

All the Directors review the Board's reports prior to the Board meeting. The reports are being issued at least 7 days prior to the meeting in order for Board members to obtain further explanation and information, where necessary. The Board's reports include (i) Progress report of the Company, and (ii) Major operational and financial issues. All proceedings from the Board meetings are minuted and signed by the Chairman of the meeting

The number of Directors' meetings and attendance of Directors for the financial year under review are set out below:

Director	Number of Board Meetings held during tenure in office	Attendance
Kushairi bin Zaidel	7	7
Leong Chen Nyen	7	7
Iskandar Zurkanain bin Mohamed (appointed on 30 November 2016)	5	5

Directors' Training

All the Directors have attended the Mandatory Accreditation Programme ("MAP") prescribed by Bursa Malaysia Securities Berhad. For new Directors, a familiarization programme will be conducted for them. This includes a presentation of the Group's operations, meetings with senior management and site visits in order to facilitate their understanding of the Group's operations and requirements.

The Directors are encouraged to attend relevant seminars and courses to keep themselves abreast on the various issues faced in the changing business environment, regulatory and corporate governance developments to enhance their professionalism, skill and knowledge to effectively discharging their duties and responsibilities.

Throughout the financial year under review, the Directors have attended various briefings, conferences and seminar programmes covering areas that included corporate governance, leadership, relevant industry updates and global business developments.

PRINCIPLE 5 – UPHOLD INTEGRITY IN FINANCIAL REPORTING

Compliance with Applicable Financial Reporting Standards

The financial statements of the Group were prepared in accordance with the applicable approved accounting standards in Malaysia and the provisions of Companies Act, 2016.

The Board is committed to provide a balanced, clear and comprehensive assessment of the Group's performance, position and prospects primarily through the annual financial statements, quarterly financial reports and corporate announcements on significant developments to the shareholders.

The Audit Committee reviews the integrity and reliability of the quarterly financial statements and audited financial statements prior to recommending to the Board.

Directors' responsibility statement in respect of the preparation of the audited financial statements is set out on page 23 of this annual report.

Assessment of Suitability and Independence of External Auditors

The Company has always maintained a transparent and professional relationship with the external auditors through the Audit Committee ('AC').

The criteria for the external auditors assessment include quality of services, sufficient of resources, communication and interaction, audit planning, independence, objectively and professional scepticism. In determining the independence of the external auditors, the AC reviewed and assessed all aspects of their relationships with them including the processes, policies and safeguards adopted by the Group and the external auditors relating to audit independence. The AC also reviewed and assessed the external auditor's performance and independence.

The AC has been explicitly accorded the power to communicate directly with the external auditors. The external auditors are invited to attend the Audit Committee Meetings to facilitate the exchange of view on issues requiring attention. The role of AC in relation to the external auditors is described on page 16.

A summary of the activities of the AC during the financial year including the evaluation of independent audit process are set out on page 14 of this annual report.

PRINCIPLE 6 – RECOGNIZE AND MANAGE RISKS**Sound Framework to Manage Risks**

The Board of Directors recognizes the importance of having an effective governance embedding risk management and internal control processes, and acknowledges its overall responsibility for maintaining a sound system of internal control covering not only financial controls but also controls relating to operational, compliance and risk management to safeguard shareholders' investments and the Group's assets.

The Statement on Risk Management and Internal Control is set out on pages 17 to 18 of this Annual Report.

Internal Audit Function

The Group's internal audit function has the policy to outsource to external professional services firm, to assist the Board and Audit Committee in providing an independent assessment on the adequacy, efficiency and effectiveness of the Group's internal control system.

The Company has now been designated a PN17 entity. A proposed regularization plan has been submitted to Bursa Malaysia Securities Berhad on 29 September 2017. During the financial year under review, the Company has engaged an external consultant to carry out risk management and internal control review for the above submission.

PRINCIPLE 7 – ENSURE TIMELY AND HIGH QUALITY DISCLOSURE**Corporate Disclosure Policies**

The core communication channel with the Stakeholders employed by the Company is the announcements made through Bursa Securities and it is the Company policy that all material announcements to be made through Bursa Securities are to be approved by the Board prior to its release. The Board observes all disclosure requirements as laid down by MMLR and Capital Markets and Services Act 2007 to have all material event and information to be disseminated publicly and transparently on timely basis with factual, accurate and complete information to ensure fair and equitable access by all stakeholders without selective disclosure of such information to specific individuals or groups. Therefore, information that is price-sensitive or any undisclosed material information about the Group is not disclosed to any party until it is ready for simultaneous distribution.

Leverage on Information Technology for Effective Dissemination of Information

The Company's website www.kfmb.com.my provides relevant information on the Group which is accessible to the public.

PRINCIPLE 8 – STRENGTHEN RELATIONSHIP BETWEEN COMPANY AND SHAREHOLDERS**Encourage Shareholder's Participation at General Meetings**

The Annual General Meeting ("AGM") remains the principal forum for dialogue with the shareholders where they are encouraged to meet the Board to have greater insight into the Group operations. Notice of AGM together with copy of the Company's annual report will be sent to shareholders at least twenty-one (21) days prior to the meeting. Shareholders who are unable to attend are allowed to appoint proxies to attend, speak and vote on their behalf. At the AGM, shareholders are given the opportunity to raise questions on the Group's activities and prospects as well as to communicate their expectations and concerns to the Company. The Board and the Management together with the external auditors and Company secretary are available to provide feedback and responses to questions raised by shareholders during the meeting.

Extraordinary General Meeting is held as and when shareholders' approvals are required on specific matters.

Poll Voting

Pursuant to the Paragraph 8.29A(1) of MMLR of Bursa Securities, all resolutions deliberated during the General Meetings will be put to vote by way of poll and the voting results will be released to Bursa Securities on the same day

Effective Communication and Proactive Engagements with Shareholders

The Company recognizes the importance of communicating with its shareholders and does this through the annual report, AGM and announcements via Bursa Securities. During the AGM, sufficient time will be allocated for shareholders to ask questions about the Group and its operations.

In addition, shareholders are able to obtain latest information of the Group at the Company's website.

This Statement was approved by the Board on 11 January 2018.

The members of the Audit Committee of the Company are pleased to present their report for the financial year ended 30 September 2017.

The present members of the Audit Committee comprise: -

Leong Chen Nyen

(Chairman, Independent, Non-Executive Director)

Kushairi bin Zaidel

(Member, Independent, Non-Executive Chairman)

Iskandar Zurkanain bin Mohamed

(Member, Independent, Non-Executive Director)

(Appointed on 30 November 2016)

Meetings

The Committee shall meet at least four (4) times annually, or more frequently as circumstances dictate. As part of the duty to foster open communication, the internal auditors and a representative(s) of the external auditors (if required) will normally attend the meetings. Other Board members and senior management staff may attend upon invitation by the Committee. Introduction

The Malaysian Code on Corporate Governance requires the Board of Directors (Board) to maintain a sound system of risk management and internal control to safeguard Shareholders' interests and the Group's assets. The Board of Kuantan Flour Mills Berhad ("KFMB") is committed to maintaining a sound system of internal control and effective risk management as part of its ongoing efforts to practice good corporate governance.

This statement of risk management and internal control is prepared pursuant to paragraph 15.26(b) of the Main Market Listing Requirements ("MMLR") and Practice Note 9 of Bursa Securities Malaysia Berhad ("Bursa Securities").

The Board is pleased to provide the following statements that has been prepared accordingly.

Board's Responsibilities

The Board recognizes the importance of good risk management practices and sound internal controls as a platform to good corporate governance. The Board acknowledges its overall responsibility in maintaining a sound, adequate and effective internal control and risk management system within the Group to ensure good corporate governance. The Group's risk management and system of internal control are structured to provide reasonable assurance to achieve the following:-

- Effective and efficient operations;
- Accuracy and timeliness of financial reporting;
- Compliance with applicable laws and regulations;
- An environment to promote integrity, good ethics and conduct;
- Regular reviews and update on risk management and system of internal controls.

However, due to inherent limitations in any internal control system, such system is design to manage rather than eliminate risks that may impede the achievement of the Group's business and corporate objectives. In this regard, the systems and procedures put in place are aimed at minimizing and managing risks. All aspects of financial, organizational, operational, compliance controls as well as risk management procedures are contained within this system of risk management and internal control.

Risk Management

Risk management is firmly embedded in the Group's management system. The Board regards risk management as an integral part of the Group's business operations. The Group had established a risk management process to identify, evaluate and manage significant risks faced by the Group and formulate appropriate measures to address those risks.

The responsibility for reviewing the adequacy and effectiveness of the internal control system has been delegated by the Board to the Audit Committee. In turn, the Audit Committee assesses the adequacy and effectiveness of the internal control system and the governance system through independent reviews performed by the internal audit function, external auditors and Management.

Internal Control System

The Board is committed to maintain a strong control structure and environment for the proper conduct of the Group's business operations. The key elements are as follows:-

- Organization and definition of the management structure of Group including areas of responsibilities and segregation of authorities and limits;
- The Board and Audit Committee meet on a quarterly basis and on an ad-hoc basis where there is a need arise to discuss matters raised by the management, on strategic and operational matters inclusive of potential risks and control issues;
- The Board had delegated the responsibilities to several committees and to the management of the Company to implement and monitor designated tasks;
- Performance reports are provided to the Board to facilitate review and monitoring of financial performance;
- Proper guidelines within the Group for recruitment and selection, compensation and benefits, performance management, training and development, employee communication and human resource administration;
- Structured training and development programs conducted both internally and externally covering all levels of staff to upgrade their knowledge, skill and competency;
- Segregation of duties to reduce the scope for error and to prevent collision;
- Health and safety policies and procedures are in place to assist in maintaining a safe working environment for all employees;
- Sufficient insurance coverage on major asset classes is in place to ensure the Group's assets are adequately covered against risks that can results in material losses.

Internal Control System (continued)

The overall system of internal control was satisfactory and has not resulted in any material losses, contingencies or uncertainties that would require public disclosure. The Board continues to review and implement measures to strengthen the internal control environment of the Group.

Internal Audit Function

The Group's internal audit function has the policy to outsource to external professional services firm, to assist the Board and Audit Committee in providing an independent assessment on the adequacy, efficiency and effectiveness of the Group's internal control system.

The Company has now been designated a PN17 entity. A proposed regularization plan has been submitted to Bursa Malaysia Securities Berhad on 29 September 2017. During the financial year under review, the Company has engaged an external consultant to carry out risk management and internal control review for the above submission.

Review of the Statement by External Auditors

Pursuant to Paragraph 15.23 of the Bursa Malaysia Securities Berhad's Listing Requirements, the external auditors have reviewed this Statement for inclusion in the annual report of the Group for the year ended 30 September 2017. Based on their review, the external auditors have reported to the Board that nothing has come to their attention that causes them to believe that this Statement is inconsistent with their understanding of the processes adopted by the Board in reviewing the adequacy and integrity of the system of risk management and internal control of the Group.

The Board is of the view that the Company's risk management and internal control system is operating effectively and adequately, in all material aspects, and have received the same assurance from the chief financial officer of the Company. The Board confirms that the risk management process in identifying, evaluating and managing significant risks faced by the Company had been in place throughout the financial year ended 30 September 2017 and up to the date of approval of this statement.

This statement is made in accordance with a resolution of the Board of Directors dated 11 January 2018.

Kuantan Flour Mills Berhad ('KFM') recognizes its responsibility not only towards its stakeholders, but also to the wider community it operates. Other statutory information

Before the financial statements of the Group and of the Company were made out, the Directors took reasonable steps:

- to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of allowance for doubtful debts and satisfied themselves that all known bad debts had been written off and that adequate allowance had been made for doubtful debts; and
- to ensure that any current assets, other than debts, which were unlikely to realise in the ordinary course of business their values as shown in the accounting records of the Group and of the Company had been written down to an amount which they might be expected so to realise.

At the date of this report, the Directors are not aware of any circumstances:

- which would render the amounts written off for bad debts or the amount of the allowance for doubtful debts in the financial statements of the Group and of the Company inadequate to any substantial extent; or
- which would render the values attributed to current assets in the financial statements of the Group and of the Company misleading; or
- which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate; or
- not otherwise dealt with in this report or financial statements which would render any amount stated in the financial statements of the Group and of the Company misleading.

At the date of this report, there does not exist:

- any charge on the assets of the Group or of the Company which has arisen since the end of the financial year which secures the liability of any other person; or
- any contingent liability of the Group or of the Company, which has arisen since the end of the financial year.

No contingent or other liability has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may affect the ability of the Group or of the Company to meet their obligations when they fall due.

In the opinion of the Directors:

- the loss of the Group's and of the Company's operations during the financial year were not substantially affected by any item, transaction or event of a material and unusual nature.
- no item, transaction or event of a material and unusual nature has arisen in the interval between the end of the year and the date of this report which is likely to affect substantially the results of operations of the Group and of the Company for the year in which this report is made.

1 General information

The principal activities of the Company are flour milling and trading of its related products. The principal activities of the subsidiaries are described in Note 13 to the financial statements.

The business of flour operation was stopped on September 2016 and recommence on May 2017.

The Company is a public limited liability company, incorporated and domiciled in Malaysia, and is listed on the Bursa Malaysia Securities Berhad.

The registered office and principal place of business of the Company is located at Kawasan Lembaga Pelabuhan Kuantan, KM25, Jalan Kuantan/Kemaman, Tanjung Gelang, P.O. Box 387, 25740 Kuantan, Pahang Darul Makmur.

The financial statements are presented in Ringgit Malaysia.

2 Basis of preparation of financial statements

(a) The financial statements of the Group and of the Company have been prepared under the historical cost convention, unless otherwise indicated in the individual policy statements in Note 3 to the financial statements and comply with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 2016 in Malaysia.

(b) The financial statements have been prepared on the assumption that the Group and the Company are going concerns. The Group and the Company incurred net losses during the financial year ended 30 September 2017 of RM12,260,338 and RM12,252,071 respectively and, as at the date, the Group and the Company had net current liabilities of RM28,977,765 and RM28,940,739 respectively and negative shareholders' funds of RM23,069,372 and RM23,025,445 respectively.

The Company had submitted its Proposed Regularisation Plan ("PRP") to Bursa Securities for approval on 29 September 2017.

The going concern assumption is highly dependent upon successful approval and implementation of the Regularisation Plan and the ability of the Group and the Company to generate sufficient cash flows to fulfil their obligation as and when fall due.

3 Summary of significant accounting policies

(a) Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at the reporting date. The financial statements of the subsidiaries used in the preparation of the consolidated financial statements are prepared for the same reporting date as of the Company. Consistent accounting policies are applied to like transactions and events in similar circumstances.

All intra-group balances, income and expenses and unrealised gains and losses resulting from intra-group transactions are eliminated in full.

Acquisitions of subsidiaries are accounted for by applying the acquisition method. Identifiable assets acquired and liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. Acquisition-related costs are recognised as expenses in the periods in which the costs are incurred and the services are received.

Any excess of the cost of business combination over the Group's share in the net fair value of the acquired subsidiary's identifiable assets, liabilities and contingent liabilities is recorded as goodwill on the statement of financial position. Any excess of the Group's share in the net fair value of the acquired subsidiary's identifiable assets, liabilities and contingent liabilities over the cost of business combination is recognised as income in profit or loss on the date of acquisition. When the Group acquires a business, embedded derivatives separated from the host contract by the acquiree are reassessed on acquisition unless the business combination results in a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required under the contract.

Subsidiaries are consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

3 Summary of significant accounting policies (continued)

(b) Non-controlling interests

Non-controlling interest represents the equity in subsidiaries not attributable, directly or indirectly, to owners of the Company, and is presented separately in the consolidated statement of comprehensive income and within equity in the consolidated statement of financial position, separately from equity attributable to owners of the Company.

Changes in the Company owners' ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. In such circumstances, the carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interest is adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the parent.

(c) Property, plant and equipment

All items of property, plant and equipment are initially recorded at cost. The cost of an item of property, plant and equipment is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

Subsequent to recognition, property, plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is computed on a straight-line basis over the estimated useful lives of the assets as follows:

Buildings, factory and civil works	20 to 50 years
Plant and machinery	10 to 30 years
Equipment and fixtures	5 years
Motor vehicles	5 to 10 years

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The residual value, useful life and depreciation method are reviewed at each financial year-end, and adjusted prospectively, if appropriate.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on derecognition of the asset is included in the profit or loss in the year the asset is derecognised.

(d) Impairment of non-financial assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when an annual impairment assessment for an asset is required, the Group makes an estimate of the asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's fair value less costs to sell and its value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units ("CGU")).

In assessing value in use, the estimated future cash flows expected to be generated by the asset are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where the carrying amount of an asset exceeds its recoverable amount, the asset is written down to its recoverable amount. Impairment losses recognised in respect of a CGU or groups of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to those units or groups of units and then, to reduce the carrying amount of the other assets in the unit or groups of units on a pro-rata basis.

3 Summary of significant accounting policies (continued)

(d) Impairment of non-financial assets (continued)

Impairment losses are recognised in profit or loss.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increase cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised previously. Such reversal is recognised in profit or loss. Impairment loss on goodwill is not reversed in a subsequent period.

(e) Subsidiaries

The Group controls an entity when the Group is exposed to, or has rights to, variable return from its involvement with the entity and has the ability to affect those returns through its power over the entity.

In the Company's separate financial statements, investments in subsidiaries are accounted for at cost less impairment losses.

(f) Financial assets

Financial assets are recognised in the statements of financial position when, and only when, the Group and the Company become a party to the contractual provisions of the financial instrument.

When financial assets are recognised initially, they are measured at fair value, plus, in the case of financial assets not at fair value through profit or loss, directly attributable to transaction costs.

The Group and the Company determine the classification of their financial assets at initial recognition, and the categories include financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments and available-for-sale financial assets.

(i) Financial assets at fair value through profit or loss

Financial assets are classified as financial assets at fair value through profit or loss if they are held for trading or are designated as such upon initial recognition. Financial assets held for trading are derivatives (including separated embedded derivatives) or financial assets acquired principally for the purpose of selling in the near term.

Subsequent to initial recognition, financial assets at fair value through profit or loss are measured at fair value. Any gains or losses arising from changes in fair value are recognised in profit or loss. Net gains or net losses on financial assets at fair value through profit or loss do not include exchange differences, interest and dividend income. Exchange differences, interest and dividend income on financial assets at fair value through profit or loss are recognised separately in profit or loss as part of other losses or other income.

Financial assets at fair value through profit or loss could be presented as current or non-current. Financial assets that are held primarily for trading purposes are presented as current whereas financial assets that are not held primarily for trading purposes are presented as current or non-current based on the settlement date.

The Group and the Company did not have any financial assets at fair value through profit or loss during the financial year ended 30 September 2017.

3 Summary of significant accounting policies (continued)

(f) Financial assets (continued)

(ii) Loans and receivables

Financial assets with fixed or determinable payments that are not quoted in an active market are classified as loans and receivables.

Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the loans and receivables are derecognised or impaired, and through the amortisation process.

Loans and receivables are classified as current assets, except for those having maturity dates later than 12 months after the reporting date which are classified as non-current.

(iii) Held to maturity investments

Financial assets with fixed or determinable payments and fixed maturity are classified as held-to-maturity when the Group has the positive intention and ability to hold the investment to maturity.

Subsequent to initial recognition, held-to-maturity investments are measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the held-to-maturity investments are derecognised or impaired, and through the amortisation process.

Held-to-maturity investments are classified as non-current assets, except for those having maturity within 12 months after the reporting date which are classified as current.

The Group and the Company did not have any held-to-maturity investments during the financial year ended 30 September 2017.

(iv) Available for sale financial assets

Available-for-sale financial assets that are designated as available for sale or are not classified in any of the three preceding categories.

After initial recognition, available-for-sale financial assets are measured at fair value. Any gains or losses from changes in fair value of the financial assets are recognised in other comprehensive income, except that impairment losses, foreign exchange gains and losses on monetary instruments and interest calculated using the effective interest method are recognised in profit or loss. The cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment when the financial asset is derecognised. Interest income calculated using the effective interest method is recognised in profit or loss. Dividends on an available-for-sale equity instrument are recognised in profit or loss when the Group's and the Company's right to receive payment is established.

Investments in equity instruments whose fair value cannot be measured reliably are measured at cost less impairment loss.

Available-for-sale financial assets are classified as non-current assets unless they are expected to be realised within 12 months after the reporting date.

A financial asset is derecognised when the contractual right to receive cash flows from the asset has expired. On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received and any cumulative gain or loss that had been recognised in other comprehensive income is recognised in profit or loss.

Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace concerned. All regular way purchases and sales of financial assets are recognised or derecognised on the trade date i.e., the date that the Group and the Company commit to purchase or sell the asset.

3 Summary of significant accounting policies (continued)

(g) Impairment of financial assets

The Group and the Company assess at each reporting date whether there is any objective evidence that a financial asset is impaired.

(i) Trade and other receivables and other financial assets carried at amortised cost

To determine whether there is objective evidence that an impairment loss on financial assets has been incurred, the Group and the Company consider factors such as the probability of insolvency or significant financial difficulties of the debtor and default or significant delay in payments. For certain categories of financial assets, such as trade receivables, assets that are assessed not to be impaired individually are subsequently assessed for impairment on a collective basis based on similar risk characteristics. Objective evidence of impairment for a portfolio of receivables could include the Group's and the Company's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period and observable changes in national or local economic conditions that correlate with default on receivables.

If any such evidence exists, the amount of impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. The impairment loss is recognised in profit or loss.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. When a trade receivable becomes uncollectible, it is written off against the impairment account.

If in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed to the extent that the carrying amount of the asset does not exceed its amortised cost at the reversal date. The amount of reversal is recognised in profit or loss.

(ii) Available for sale financial assets

Significant or prolonged decline in fair value below cost, significant financial difficulties of the issuer or obligor, and the disappearance of an active trading market are considerations to determine whether there is objective evidence that investment securities classified as available-for-sale financial assets are impaired.

If an available-for-sale financial asset is impaired, an amount comprising the difference between its cost (net of any principal payment and amortisation) and its current fair value, less any impairment loss previously recognised in profit or loss, is transferred from equity to profit or loss.

Impairment losses on available-for-sale equity investments are not reversed in profit or loss in the subsequent periods. Increase in fair value, if any, subsequent to impairment loss is recognised in other comprehensive income. For available-for-sale debt investments, impairment losses are subsequently reversed in profit or loss if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss in profit or loss.

(h) Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, deposits held at call with banks and highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(i) Inventories

Inventories are stated at the lower of cost and net realisable value. Costs incurred in bringing the inventories to their present location and conditions are accounted for as follows:

- raw material: purchase costs on weighted average basis
- finished goods and work-in-progress: costs of direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. These costs are assigned on a weighted average basis.

Net realisable value is the estimated selling price in the ordinary course of business less estimated costs of completion and the estimated costs necessary to make the sale.

3 Summary of significant accounting policies (continued)

(j) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be estimated reliably.

Provision are reviewed at each reporting date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed. If the effect of the time value of money is material, provisions are discounted using a current pre tax rate reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of the time is recognised as a finance cost.

k) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using a valuation technique. The measurement assumes that the transaction takes place either in the principal market or in the absence of a principal market, in the most advantageous market. For non-financial asset, the fair value measurement takes into account a market's participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

For financial reporting purposes, the fair value measurements are analysed into level 1 to level 3 as follows:-

Level 1: Inputs are quoted prices (unadjusted) in active markets for identical assets or, liability that the entity can access at the measurement date;

Level 2: Inputs are inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3: Inputs are unobservable inputs for the asset or liability.

The transfer of fair value between levels is determined as of the date of the event or change in circumstances that caused the transfer.

(l) Financial liabilities

(i) Financial liabilities at fair value through profit or loss

Financial liabilities are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability.

Financial liabilities, within the scope of MFRS 139, are recognised in the statement of financial position when, and only when, the Group and the Company become a party to the contractual provisions of the financial instrument. Financial liabilities are classified as either financial liabilities at fair value through profit or loss or other financial liabilities.

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as fair value through profit or loss.

Financial liabilities held for trading include derivatives entered into by the Group and the Company that do not meet the hedge accounting criteria. Derivative liabilities are initially measured at fair value and subsequently stated at fair value, with any resultant gains or losses recognised in profit or loss. Net gains or losses on derivatives include exchange differences.

The Group and the Company have not designated any financial liabilities at fair value through profit or loss.

3 Summary of significant accounting policies (continued)

(l) Financial liabilities (continued)

(ii) Other financial liabilities

The Group's and the Company's other financial liabilities include trade payables, other payables and loans and borrowings.

Trade and other payables are recognised initially at fair value plus directly attributable transaction costs and subsequently measured at amortised cost using the effective interest method.

Loans and borrowings are recognised initially at fair value, net of transaction costs incurred, and subsequently measured at amortised cost using the effective interest method. Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

For other financial liabilities, gains and losses are recognised in profit or loss when the liabilities are recognised, and through the amortisation process.

A financial liability is derecognised when the obligation under the liability is extinguished when an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in profit or loss.

(m) Borrowing costs

Borrowing costs are capitalised as part of the cost of a qualifying asset if they are directly attributable to the acquisition, construction or production of that asset. Capitalisation of borrowing costs commences when the activities to prepare the asset for its intended use or sale are in progress and the expenditures and borrowing costs are incurred. Borrowing costs are capitalised until the assets are substantially completed for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period they are incurred. Borrowing costs consist of interest and other costs that the Group and the Company incurred in connection with the borrowing of funds.

(n) Leases

Finance leases, which transfer to the Group substantially all the risks and rewards incidental to ownership of the leased item, are capitalised at the inception of the lease at the fair value of the leased or, if lower, at the present value of the minimum lease payments. Any initial direct costs are also added to the amount capitalised. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged to profit or loss. Contingent rents, if any, are charged as expenses in the periods in which they are incurred.

Leased assets are depreciated over the estimated useful life of the asset. However, if there is no reasonable certainty that the Group will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life and the lease term.

Operating lease payments are recognised as an expense in profit or loss on a straight-line basis over the lease term. The aggregate benefit of incentives provided by the lessor is recognised as a reduction of rental expense over the lease term on a straight-line basis.

o) Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable.

(i) Sale of goods

Revenue from sale of goods is recognised upon transfer of significant risk and rewards of ownership of the goods to the customer. Revenue is not recognised to the extent where there are significant uncertainties regarding recovery of the consideration due, associated costs or possible return of goods.

3 Summary of significant accounting policies (continued)

(o) Revenue (continued)

(ii) Revenue from services

Revenue from services rendered is recognised net of service taxes and discounts as and when the services are performed.

(iii) Dividend income

Dividend income is recognised when the Group's right to receive payment is established.

(iv) Interest income

Interest income is recognised using the effective interest method.

(p) Employee benefits

(i) Short term benefits

Wages, salaries, bonuses and social security contribution are recognised as an expense in the year in which the associated services are rendered by employees. Short term accumulating compensated absences such as paid annual leave are recognised when services are rendered by employees that increase their entitlement to future compensated absences. Short term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

(ii) Defined contribution plans

The Group participates in the national pension scheme as defined by law of the country in which it has operations. The Group makes contribution to the Employees Provident Fund ("EPF") in Malaysia, a defined contribution pension scheme. Contributions to defined pension schemes are recognised as an expense in the period in which the related service is performed.

(iii) Employee leave entitlement

Employee entitlements to annual leave are recognised as a liability when they accrue to the employees. The estimated liability for leave is recognised for services rendered by employees up to the reporting date.

(q) Income taxes

(i) Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the reporting date.

Current taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity.

(ii) Deferred tax

Deferred tax is provided using the liability method on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

3 Summary of significant accounting policies (continued)

(q) Income taxes (continued)

(ii) Deferred tax (continued)

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

(r) Share capital

Ordinary shares are equity instruments. Ordinary shares are recorded at the proceeds received, net of directly attributable incremental transaction costs. Ordinary shares are classified as equity. Dividends on ordinary shares are recognised in equity in the period in which they are declared.

(s) Contingencies

A contingent liability or asset is a possible obligation or rights that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of uncertain future event(s) not wholly within the control of the Group.

Contingent liabilities and assets are not recognised in the statements of financial positions of the Group.

(t) Foreign currency

(i) Functional and presentation currency

The individual financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The consolidated financial statements are presented in Ringgit Malaysia (RM), which is also the Company's functional currency.

(ii) Foreign currency transactions

Transactions in foreign currencies are measured in the functional currency of the Company and its subsidiaries and are recorded on initial recognition in the functional currencies at exchange rates approximating those ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the reporting date. Non-monetary items denominated in foreign currencies that are measured at historical cost are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items denominated in foreign currencies measured at fair value are translated using the exchange rates at the date when the fair value was determined.

Exchange differences arising on the settlement of monetary items or on translating monetary items at the reporting date are recognised in profit or loss for the period.

Exchange differences arising on the translation of non-monetary items carried at fair value are included in profit or loss for the period.

10 Taxation

(a) Tax charge for the year

There is no tax charge as the Group and the Company are in tax loss position.

(b) Numerical reconciliation of income tax expense

The explanation on the difference in the tax on the Group's and Company's loss and the theoretical amount that would arise using the statutory income tax rate of Malaysia is as follows:

	Group		Company	
	2017 RM	2016 RM	2017 RM	2016 RM
Loss before tax	(12,260,338)	(12,092,834)	(12,252,071)	(12,039,199)

	-	-	-	-

(c) Deferred tax

Deferred tax assets have not been recognised in respect of the following items as they arose in companies with recent history of losses.

	Group		Company	
	2017 RM	2016 RM	2017 RM	2016 RM
Unused tax losses	68,528,447	59,161,447	63,300,000	53,933,000

Unutilised reinvestment allowances	9,972,944	9,972,944	9,972,944	9,972,944

The unused tax losses and unutilised reinvestment allowance of the Group are available for indefinitely for offsetting against future taxable profits of the respective entities within the Group, subject to no substantial change in shareholdings of those entities under the Income Tax Act, 1967 and the guidelines issued by the tax authority.

11 Loss per share

Basic and diluted

Basic and diluted loss per share amounts are calculated by dividing the loss for the year, net of tax attributable to owners of the parent by the weighted average number of ordinary shares outstanding during the financial year.

	Group	
	2017	2016
Loss net of tax attributable to owners of the Company used in the computation of basic and diluted loss per share (RM)	(12,259,715)	(12,092,211)

Receivables that are neither past due nor impaired

Trade and other receivables that are neither past due nor impaired are creditworthy debtors with good payment records with the Group.

None of the Group's trade receivables that are neither past due nor impaired have been renegotiated during the financial year.

Receivables that are past due but not impaired

The Group and the Company have trade receivables amounting to RM3,560 (2016: RM35,796) and RM3,558 (2016: RM35,794) respectively that are past due at reporting date but not impaired.

The Group's primary exposure to credit risk arises through its trade receivables. The Group's trading terms with its customers are mainly on credit. The credit period is generally between 7 to 90 days. Each customer has a maximum credit limit. The Group seeks to maintain strict control over its outstanding receivables and has a credit control department to minimise credit risk. Overdue balances are reviewed regularly by senior management. The Group's trade receivables relate to a large number of diversified customers. There is no significant concentration of credit risk. As at 30 September 2017, the Directors of the Company are of the opinion that no allowance for impairment is necessary in respect of these balances as there has not been a significant change in the credit quality and the balances are still considered fully recoverable.

24 Fair value of financial instruments

(a) Fair value of financial instruments by classes that are not carried at fair value and whose carrying amounts are not reasonable approximation of fair value

	Group and Company			
	2017		2016	
	Carrying amount RM	Fair value RM	Carrying amount RM	Fair value RM
Financial assets:				
Unquoted shares	364,686	*	477,151	*

*Fair value information has not been disclosed for the Group's investment in equity instrument that is carried at cost because fair value cannot be measured reliably. This equity instrument represents ordinary shares that is not quoted on any market and does not have any comparable industry peer that is listed. In addition, the variability in the range of reasonable fair value estimates derived from valuation techniques is significant.

(b) Determination of fair value

Financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value

The following are classes of financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value:

	Note
Trade and other receivables	16
Trade and other payables	18

The carrying amounts of these financial assets and liabilities are reasonable approximation of fair values, due to their short-term in nature.

25 Financial risk management objectives and policies

The Group and Company are exposed to financial risks arising from their operations and use of financial instruments. The key financial risks include credit risk, liquidity risk, interest rate risk and foreign currency risk.

The Board of Directors reviews and agrees policies and procedures for the management of these risks, which are executed by the Chief Financial Officer and management. The audit committee provides independent oversight to the effectiveness of the risks management process.

It is, and has been throughout the current and previous financial period, the Group's policy that no derivatives shall be undertaken except for the use as hedging instruments where appropriate and cost-efficient. The Group and the Company do not apply hedge accounting.

The following sections provide details regarding the Group's and Company's exposure to the above-mentioned financial risks and the objectives, policies and processes for the management of these risks.

(a) Credit risk

Credit risk is the risk of loss that may arise on outstanding financial instruments should a counterparty default on its obligations. The Group's and the Company's exposure to credit risk arises primarily from trade and other receivables. For other financial assets (including cash and bank balances), the Group and the Company minimise credit risk by dealing exclusively with high credit rating counterparties.

The Group's objective is to seek continual revenue growth while minimising losses incurred due to increased credit risk exposure. The Group trades only with recognised and creditworthy third parties. It is Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis with the result that the Group's exposure to bad debts is not significant.

25 Financial risk management objectives and policies (continued)

(a) Credit risk (continued)

Exposure to credit risk

At the reporting date, the Group's and the Company's maximum exposure to credit risk is represented by the carrying amount of each class of financial assets recognised in the statements of financial position.

Credit risk concentration profile

The Group determines concentration of credit risk by monitoring the country profile of its trade receivables on an ongoing basis. The credit risk concentration profile of the Group's trade receivables at the reporting date is as follows:

	Group			
	2017		2016	
	RM	% of total	RM	% of total
By country:				
Malaysia	706,064	100.0	35,796	100.0

Financial assets that are neither past due nor impaired

Information regarding trade and other receivables that are neither past due nor impaired is disclosed in Note 16. Deposits with licensed banks that are neither past due nor impaired are placed with or entered into with reputable financial institutions with high credit ratings and no history of default.

Financial assets that are either past due or impaired

Information regarding financial assets that are either past due or impaired is disclosed in Note 16.

(b) Liquidity risk

Liquidity risk is the risk that the Group or the Company will encounter difficulty in meeting financial obligations due to shortage of funds. The Group's exposures to liquidity risk arise primarily from mismatches of the maturities of financial assets and liabilities. The Group manages its debt maturity profile, operating cash flows and the availability of funding so as to ensure that refinancing, repayment and funding needs are met.

The Group's overall liquidity risk management is to maintain sufficient levels of cash to meet its working capital requirements. In addition, the Group strives to maintain available banking facilities at a reasonable level to its overall debt position. As far as possible, the Group raises funding from shareholders, capital markets and financial institutions and balances its portfolio with some short term funding so as to achieve overall cost effectiveness.

Analysis of financial instruments by remaining contractual maturities

The table below summarises the maturity profile of the Group's and the Company's liabilities at the reporting date based on contractual undiscounted repayment obligations.

	On demand or within one year			1 to 5 years	Total
	RM		RM		
Group - 2017

Total undiscounted financial liabilities	37,455,380	-	37,455,380		

25 Financial risk management objectives and policies (continued)

(c) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's and the Company's financial instruments will fluctuate because of changes in market interest rates.

The Group's and the Company's exposure to interest rate risk arises primarily from its loans and borrowings.

The Group's policy is to manage interest cost using a mix of fixed and floating rate debts.

Sensitivity analysis for interest rate risk

At the reporting date, if interest rates had been 100 basis points lower/higher, with all other variables held constant, the Group's loss net of tax would remain unchanged because all term loans of the Group have been fully repaid in December 2015 and August 2016.

(d) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Group has transactional currency exposure arising from sales or purchase that are denominated in a currency other than the functional currency of the Group ie RM. The foreign currencies in which these transactions are denominated are mainly United States Dollars ("USD").

Approximately NIL (2016: NIL) and NIL (2016: 62.86%) of the Group's sales and costs are denominated in foreign currencies. The Group's trade receivable and trade payable balances at the reporting date have similar exposures.

Sensitivity analysis for foreign currency risk

The following table demonstrates the sensitivity of the Group's and the Company's loss net of tax to a reasonably possible change in the USD exchange rate against the functional currency of the Group entities with all other variables held constant.

	Group and Company Impact on loss net of tax Decrease/(Increase) RM
USD/RM – strengthened 5%	NIL
USD/RM – weakened 5%	NIL

26 Capital management

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximise shareholder value.

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions.

The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Group's policy is to keep the gearing ratio at a reasonable level. Included in the Group net debt are loans and borrowings, trade and other payables, less cash and bank balances. Capital includes equity attributable to owners of the parent.

27 Segmental information

Geographical information

Revenue information based on the geographical location of customers is as follows:

	Revenue	
	2017 RM	2016 RM
Malaysia	7,521,075	3,924,194

No segmental analysis by business segment had been prepared as the operations of the Group are principally flour milling and trading of its related products. The other activities are not significant to the Group.

28 Significant accounting judgements and estimates

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

Judgements made in applying accounting policies

There were no significant judgements made in applying the accounting policies of the Group which may have significant effects on the amounts recognised in the financial statements.

Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

28 Significant accounting judgements and estimates (continued)

Depreciation of plant and machinery

The cost of plant and machinery is depreciated on a straight-line basis over the assets' useful life. Management estimates the useful lives of these plant and machinery to be 10 to 30 years. These are common life expectancies applied for the assets owned by the Group. Changes in the expected level of usage and technological developments could impact the economic useful lives and the residual values of these assets, therefore future depreciation charges could be revised.

Impairment on property, plant and equipment

The Group assesses whether there are indicators of impairment for all its assets at the end of the reporting year. The assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. The Group engaged an independent valuer (the Valuer) to perform a valuation on property, plant and equipment. The Valuer valued property, plant and equipment using market value method. The values of the property, plant and equipment under the market value method are based on "as is where is" basis. The valuation has taken into consideration the cost of replacement, respective ages, estimated remaining life, intensity of use, the state of repair and current prices for similar used property.

29 Adoption of new and revised Malaysian Financial Reporting Standards and Interpretations

During the financial year, the Group has adopted the following new and revised Malaysian Financial Reporting Standards and Interpretations (collectively referred to as 'MFRSs'), issued by the Malaysian Accounting Standards Board ('MASB') and effective for the financial periods beginning on or after 1 January 2016:

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF KUANTAN FLOUR MILLS BERHAD

Report on the Audit of the Financial Statements

Qualified Opinion

We have audited the financial statements of Kuantan Flour Mills Berhad, which comprise the statements of profit or loss and other comprehensive income, the statements of financial position as at 30 September 2017 of the Group and of the Company, statements of changes in equity and statements of cash flows of the Group and of the Company for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 29 to 63.

In our opinion, except for the possible effects of the matter described in the Basis for Qualified Opinion section of our report, the accompanying financial statements give a true and fair view of the financial position of the Group and of the Company as at 30 September 2017, and of their financial performance and their cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 2016 in Malaysia.

Basis for Qualified Opinion

The Group and the Company incurred net losses during the financial year ended 30 September 2017 of RM12,260,338 and RM12,252,071 respectively and, as at that date, the Group and the Company had net current liabilities of RM28,977,765 and RM28,940,739 respectively and negative shareholders' funds of RM23,069,372 and RM23,025,445 respectively.

The Company had submitted its Proposed Regularisation Plan ("PRP") to Bursa Securities for approval on 29 September 2017. Till to date the PRP has yet to be approved by Bursa Malaysia Securities Berhad and this situation indicates the existence of a material uncertainty that may cast significant doubt on the Group and the Company ability to continue as a going concern and therefore the Group and the Company may be unable to realise their assets and discharge their liabilities in the normal course of business.

Independence and Other Ethical Responsibilities

We are independent of the Group and of the Company in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants ("IESBA Code"), and we have fulfilled our other ethical Responsibilities in accordance with the By-Laws and the IESBA Code.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the Group and of the Company for the current year. These matters were addressed in the context of our audit of the financial statements of the Group and of the Company as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Except for matters that has been described in the Basis for Qualified Opinion section, we have determined that there are no key audit matters to communicate in our report.

Information Other than the Financial Statements and Auditors' Report Thereon

The Directors of the Company are responsible for the other information. The other information comprises the information included in the Directors' Report but does not include the financial statements of the Group and of the Company and our auditors' report thereon, which we obtained prior to the date of this auditors' report, and the remaining parts of the annual report, which are expected to be made available to us after that date.

Our opinion on the financial statements of the Group and of the Company does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Company, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Company or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Statements

The Directors of the Company are responsible for the preparation of financial statements of the Group and of the Company that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 2016 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements of the Group and of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Company, the Directors are responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Group and of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's or the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Company, including the disclosures, and whether the financial statements of the Group and of the Company represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial statements of the Group. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF KUANTAN FLOUR MILLS BERHAD (continued)

Auditors' Responsibilities for the Audit of the Financial Statements (continued)

We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and where applicable, related safeguards.

Other reporting responsibilities

The supplementary information set out in Note 33 is disclosed to meet the requirement of Bursa Malaysia Securities Berhad and is not part of the financial statements. The Directors are responsible for the preparation of the supplementary information in accordance with Guidance on Special Matter No. 1, Determination of Realised and Unrealised Profits or Losses in the Context of Disclosure Pursuant to Bursa Malaysia Securities Berhad Listing Requirements, as issued by the Malaysian Institute of Accountants ("MIA Guidance") and the directive of Bursa Malaysia Securities Berhad. In our opinion, the supplementary information is prepared, in all material respects, in accordance with the MIA Guidance and the directive of Bursa Malaysia Securities Berhad.

Other Matters

This report is made solely to the members of the Company, as a body, in accordance with Section 266 of the Companies Act, 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.
